Differentiated Activities for Teaching Key Comprehension ...

Differentiation is the term used to describe the professional techniques that a teacher uses when delivering all lessons or activities across all areas of the curriculum with the aim of progressing and developing student skill and knowledge. Differentiation is multi-faceted and involves the teacher drawing upon professional skills including planning, assessment and reflection when preparing for and delivering lessons and activities within a curriculum that are assessable and inclusive to all ...

Differentiating the Curriculum - Best Practice Resource

Description. This collection of 14 standards-based activities provides exactly the materials teachers need to differentiate math instruction for the range of learners in their classes. Every set of activities targets a specific skill at three levels-below-level, on-level, and above-level. The activity set begins with a reproducible data sheet that features a set of high-interest data, such as a frequency table of monthly pet store sales.
