Write a Paper About a Historical Figure . One of the simplest ways to find a great topic is to choose an interesting person in the history of psychology and write a paper about them. Your paper might focus on many different elements of the individual's life, such as their biography, professional history, theories, or influence on psychology.

Psychology Research Paper Topics: 50+ Great Ideas

The earliest psychologists that we know about are the Greek philosophers Plato (428-347 BC) and Aristotle (384-322 BC). These philosophers (see Figure 1.3) asked many of the same questions that today's psychologists ask; for instance, they questioned the distinction between nature and nurture and the existence of free will.

1.2 The Evolution of Psychology: History, Approaches, and ...

I minored in Psychology in undergrad where I used this book in my History and Systems class. The content is fascinating and well-written. It is printed in columnar format -- 2 columns on each page -- so it is a very easy read, like a magazine article.

King, Viney & Woody, A History of Psychology: Ideas and ...

Psychology was a branch of the domain of philosophy until the 1870s, when it developed as an independent scientific discipline in Germany. Psychology as a self-conscious field of experimental study began in 1879, in Leipzig Germany, when Wilhelm Wundt founded the first laboratory dedicated exclusively to psychological research in Germany.

History of psychology - Wikipedia

The theory of evolution contained in *The Origin of Species* (1859) by Charles Darwin (1809-1882) was the starting point for many Western developmental psychologists, both European and American. In addition, Darwin's emphasis on individual differences and adaptation became important components of developmental psychology.

History of Developmental Psychology - IResearchNet

The history of psychology has shown us that truth changes. Each ancient philosopher held that their view is correct. According to Kuhn (1970) scientific theories are cyclical in nature suggesting that when incongruity occurs that cannot be explained by the current theory and new theory is allowed to emerge.
