*Drawing Traditional
Buildings - CORE*
The term

Read Free

Drawing

'elevation' refers to an orthographic projection of the exterior (or sometimes the interior) faces of a building, that is a two-dimensional drawing of the building's façades. As buildings are rarely simple rectangular shapes in plan , an

Read Free Drawing

Traditional elevation drawing is a first angle projection that shows all parts of the building as seen from a particular direction with the perspective flattened.

Blueprint.

Blueprints were first introduced in the 19th century, to allow the reproduction of documents, and in particular drawings used in industries such as construction.

Blueprints are generally recognisable from
