Our Dry Guide Coat detects the smallest surface imperfections in the dry primer sanding process. It requires no masking before use and has no dry time after application. When sanding polyester filler, our Dry Guide Coat help to ensure the filler is flat with no ripples and body styling lines and contours are straight and correct. It ensures the total primed area is sanded prior to top coating. Use for both wet and dry sanding. Dry Guide Coat contains no solvents.

3M™ Dry Guide Coat

Dry Guide Coat White 100g The Dry Guide Coat has excellent covering properties. The powder makes all imperfections and scratches visible. This unique applicator leaves an even powder coating. The applicator has flexible edges which makes it easy to use on contoured areas. This is a great tool in guiding the operator through the sanding process and achieving a perfect result. The white powder is used for dark colour surfaces.

Halfords Guide Coat is a professional quality product designed to assist in creating a perfectly level surface when sanding. The product is applied as a light mist over filler or primer and dries within minutes. Low spots will be highlighted by the presence of the guide coat during sanding, enabling re-filling and a professional quality repair.

Halfords Guide Coat | Halfords UK

Powder is ideal to highlight body lines. 3M™ Dry Guide Coat is used to identify surface imperfections such as pinholes in body filler and deep scratches in primer. Unlike liquid and aerosol guide coats, Dry Guide Coat requires no masking before use, and there is no dry time after application. The dry formula contains no intentionally added solvents and doesn't clog sandpaper while delivering easier cleanup.
