In the book, 'the economy of England 1450-1750 by D.C. Coleman: England was described as having habit of "â€|borrowing and improving, rather than inventingâ€|" Though homegrown inventions occurred, this habit was embedded in the English national trait.

Pre Industrial England 1450-1750 - UK Essays

Development of Economic Systems. The British Empire was a massive maritime power during the period from 1450-1750 and had set up numerous trading posts and slave labor sites across the Atlantic. The founding of these sites brought the Americas into the already thriving global economy. The Americas became a major exporter of luxury goods such as sugar, textiles, and tobacco to the British empire.
