#### ~~Endocrine Manifestations Of Systemic Autoimmune Diseases~~

Because oral manifestations may accompany many systemic diseases, it is essential that these are appropriately recognized to provide correct diagnosis and referral for treatment and patient care. Multiple entities involving the various areas of the oral cavity like the soft palate, hard palate, tongue, gingiva, oral mucosa, the dentition, periodontium, and the salivary gland tissue have been enlisted.

#### ~~Common oral manifestations of systemic disease~~

Systemic diseases may affect the oral tissues, i.e. oral mucosa, salivary glands, teeth or bone, and oral manifestations will frequently present early, i.e. in association with (non-fulminant) systemic disease. Thus, recognition and proper diagnosis is essential to initiate appropriate treatment sch ....
