Ethics: The Philosophy of Life by Felix M. Montemayor

The term ethics may refer to the philosophical study of the concepts of moral right and wrong and moral good and bad, to any philosophical theory of what is morally right and wrong or morally good and bad, and to any system or code of moral rules, principles, or values. The last may be associated with particular religions, cultures, professions, or virtually any other group that is at least partly characterized by its moral outlook.

ethics | Origins, History, Theories, & Applications ...

A philosophy of life grows out of life experience. A deep longing is the root of a philosophy of life. We attribute infinite, inherent worth to every person. Individuals are infinitely interconnected, interrelated and interdependent. Actions of individuals make a difference beyond that individual. ...

Access Free Ethics The Philosophy Of Life

Moral Philosophy. Moral philosophy is the branch of philosophy that contemplates what is right and wrong. It explores the nature of morality and examines how people should live their lives in relation to others. Moral philosophy has three branches. One branch, meta-ethics, investigates big picture questions such as, “What is morality?” “What is justice?” “Is there truth?” and “How can I justify my beliefs as better than conflicting beliefs held by others?”.
