This book should be titled
“Europe and the history
without people”. It is a
protracted screed of social
science theories and a
history of the world told
from the perspective of an
iron pot being traded for a
beaver fur. The whole thing
is an argument against
social science types writing
history.

Without History deftly explores the historical trajectory of so-called modern globalization. In this foundational text about the development of the global political economy, Eric R. Wolf challenges the long-held anthropological notion that non-European cultures and peoples were isolated and static entities before the advent of European colonialism and imperialism.
