“The Student Exploration Sheet provided with each Gizmo was a great starting point. From there, I modified many of my questions to fit the key areas I wanted the students to understand by the end of the class. Towards the end of the year, one of my classes came up with the idea to see how many “pathways” they could identify to create energy.

In the Sticky Molecules Gizmo, you will discover what causes this “stickiness.” You will investigate a variety of phenomena that result from the attraction of molecules to one another. To begin, drag a dropper bottle of Water and a Petri dish (labeled Polarity) to the simulation area. Drag the dropper over the dish to add water.
