aspirations of ordinary Spaniards' and 'what they were thinking and expecting from the future' (p.1). Fear and Progress is, however, more than simply an attempt to tell the history of Spain from a fresh perspective. Cazorla Sánchez's first vignette is of the poverty experienced by an ordinary family in Almeria.

~~1939 ...~~

His study, *Fear and Progress: Ordinary Lives in Franco's Spain, 1939-1975*, is an attempt to set the historical record straight by demonstrating that it is wrong, as some academics and Franco's apologists have done, to credit him and his regime for having laid the framework for Spain's remarkable metamorphosis from a backward country into a modern, democratic European nation.
