Master's in Data Analytics | Canisius College | Buffalo, NY

Financial Modeling using Excel(Canisius, 2016-2019) PortfolioAnalysis,Canisius,2014-2019, FIN414,MBA617 Options and Futures (Canisius, 2014-2016,2019, FIN480)

Dr. Yuxing Yan

We introduce the concept of a financial stability real interest rate using a macroeconomic banking model with an occasionally binding financing constraint, as in Gertler and Kiyotaki (2010). The financial stability interest rate, r^{**} , is the threshold interest rate that triggers the constraint being binding.

The Financial (In)Stability Real Interest Rate, R^{**}

I am the author of the financial modeling textbook Analyzing Financial Data and Implementing Financial Models Using R, which is published by Springer Nature. The first edition was published in 2015 and, since that time, the e-book version has been downloaded more than 66,000 times. The second edition is scheduled to be released in March 2021.
