Foerster Algebra And Trigonometry Skills
Paul Foerster wrote the best 2nd year
algebra textbook I have ever examined or
taught from. As a trained physicist and
mathematician with an unusual and
delightful sense of humor, Foerster
develops the algebra by developing and
illustrating the algebra skills in the context
of functions. His applications are real-
world, meaty and meaningful.

algebra and trigonometry as the foundation for calculus and should take a student 1 ½ to 2 years for completion.

Foerster Algebra 2 and Trigonometry |
Rainbow Resource

<p>When we found out that Harold Jacobs didn't have an Algebra II text, we called Mr. Jacobs and asked for his advice. He recommended this title. It has proven exceptional. This two-year book covers Algebra II and Trigonometry so well that Calculus is the natural next step. Mr. Foerster was obviously a good student of Mr. Jacobs and an equally talented teacher and writer.</p>
