the bukh beta lifeboat diesel engines set new standards for low exhaust emissions and contribute to the reduction of marine environmental pollution. They comply with the Tier standards which have been made technically possible through the incorporation of pre-combustions chamber injection instead of common rail / unit injection.

~~Bukh DV24 RME inboard marine diesel engine lifeboat used ...~~

In addition, unlike many of its analogues, the Bukh marine engine is a real diesel engine, originally intended for ships, and not a pickled automobile or industrial engine. Units can be used as main engines for small vessels or as a part of pumps, as a diesel generator drive, but they became world famous as engines for lifeboats.
