Promoting Sustainable Behavior: An Introduction to Community-Based Social Marketing. Doug McKenzie-Mohr*. St. Thomas University. Most programs to foster sustainable behavior continue to be based upon models of behavior change that psychological research has found to be limited. Although psychology has much to contribute to the design of effective programs to foster sustainable behavior, little attention has been paid to ensuring that psychological knowledge is accessible to those who design environmental programs.

A healthy sustainable community is in large part the result of each of its members. When members of a community adopt healthy habits - by getting more exercise, for example - the community becomes a healthier one. When the members use resources wisely - by recycling, for example - the community moves towards sustainability.
