Frankenstein is part of the Gothic movement in literature, a form that was only just becoming popular in England at the time of its publication. The Gothic mode was a reaction against the humanistic, rationalist literature of The Age of Reason : one might say it was ushered in by the death of Keats, the English author with whom Romanticism is perhaps most closely associated.

In this mood of mind I betook myself to the mathematics and the branches of study appertaining to that science as being built upon secure foundations, and so worthy of my consideration. (2.10) Something about the way Frankenstein describes this makes it sound like he's a player jumping around from woman to woman looking for one who's "real."
