process, the airplane was “preassembled” on the computer, eliminating the need for a costly, full-scale mock-up.

## Boeing: Historical Snapshot: 777 Commercial Transport

The Boeing 777-300 is a long range, twin aisle, twin-engine jet manufactured by Boeing, the American aerospace company. We operate these on routes to Asia and North America. Often referred to as the “Triple Seven”, it was the world’s first commercial aircraft entirely designed by computer. Its visible features include super large engines, low hanging landing gear and a blade shaped tail cone with a relatively narrow tailfin.
