216 13th, LLC in Columbus, GA | Company Information & Reviews

The change proposed and ultimately adopted in GA-216-2016 made use of incorrect language when describing the appropriate studs. Although the intention was to support the use of -30 and -33 studs rather than the use of -20EQ studs with abuse resistant or impact resistant panels, the language contained in section 2.2.12.4 used the term “base metal thickness” to communicate the recommendation ...
