*Standard score to percentile conversion -
MedFriendly.com*

I just dont understand the percentile bit
cause it said percentile is the ranked
position out of 100 this individual scored in
e,g the 5th percentile means that the person
has scored in the bottom 5% of scores for
that individual age. the higher the
percentile score in this test, the larger the
percentage of the autistic population that
exhibit similar behaviour, so if he scored
