GMW3044, 9th Edition, October 2017 - Zinc Plating Material Description. This coating system must be free of hexavalent chromium, per GMW3059 requirements. The plating shall be shown on the part drawing. Table 1 lists the common plating thickness codes covered by this specification. It is recommended to use these common codes to avoid product complexity. This plating is at present approved in ...

GMW3044 : Zinc Plating

Black color (passivation product) as shown in Table 1 is not approved yet. Any other colors (where color is developed by adding pigment), if required, do not need a specially approved source for the color. Establish availability at one of the sources approved to the required post-supplementary code (suffix) before putting any color other than clear (Bright) on the drawing.
