Your brand manual or style guide are the documents you need to help keep it consistent; they're key to maintaining your brand identity. Whether you're a small business, agency, or a corporation, you should have a proper document that covers all the details of the brand. Such as the design of different logos you use, the color palette, fonts used for the brand design, etc.

Create custom grids that can help you experiment with your layouts InDesign.

[Create custom guides | Adobe InDesign tutorials](#)

Ruler guides are different from grids in that they can be positioned freely on a page or on a pasteboard. InDesign users can create two kinds of ruler guides: pageguides, which appear only on the page on which they create them, or spreadguides, which span all pages and the pasteboard of a multiple-page spread. You can view ruler guides if they exist in the InDesign document or assignment file, but you cannot create them in InCopy.

It appears that I too cannot access smart guides when creating a master page, even after resetting my indesign permissions and restarting my computer. I can, however, access them on other, non master pages. Yes, smart guides are selected in the view menu, and I've tried toggling on and off the snap to document guide feature. So go figure.
