Guided practice is defined as scaffolded independent practice that occurs before minimally-assisted independent practice. During guided practice, the teacher empowers students to practice skills on their own for the first time, giving concrete, actionable feedback to everyone and additional focused attention to specific learners that need it.

Writing a Lesson Plan: Guided Practice - ThoughtCo

There are two options for guided practice: OPTION 1) In partners, you are going to work on drawing an array. Each group will get four practice problems. Your job is to sit across from each other and quickly draw the array on your white board so that no one else can see it. When finished, flip your white board over and show your partner.
