The K4392V2-H M7240 is often confused for the name of either the Honeywell 6150 Keypad or the Honeywell 5828 Keypad. But this is incorrect. The K4392V2-H M7240 is nothing more than the part name of the small plastic door that covers the buttons on these keypads. Since these keypads are of similar size and have similar dimensions, Honeywell decided to use the same part for these two keypads.

Lower the keypad onto the clips. If the keypad is AC powered, plug it onto the outlet. Step 5: Activate the keypad. Now that your keypad has fresh batteries, you may now activate it by pressing any numbered key until you hear a beep. The Honeywell alarm system is incredibly user-friendly. Its how-to guides are also incredibly simple.
