Most organizations worldwide are small by size, but their importance to both developed and developing economies and societies is indisputable. According to the World Trade Organization, small-and medium-sized enterprises (SMEs) represent over 90 per cent of the business population, 60-70% of employment and 55% of GDP in developed economies. SMEs therefore do not just significantly contribute to the economy – they ARE the economy.

Another is that most trades can be operated as home-based businesses because the work is typically performed at the customer job site. A third reason is that startup capital costs for things like vehicles and tools are relatively low for most trades, at least compared to many other types of businesses.

[Best Skilled Trade Businesses to Start](#)

Small business and trade The participation of micro, small and medium-sized enterprises (MSMEs) in international trade has remained limited for numerous reasons. These include lack of relevant skills, lack of knowledge about international markets, non-tariff barriers, cumbersome regulations and border procedures, and limited access to finance, in particular trade finance.
