If How to Change Your Mind furthers the popular acceptance of psychedelics as much as I suspect it will, it will be by capsizing the long association, dating from Leary's time, between the drugs and young people. Pollan observes that the young have had less time to establish the cognitive patterns that psychedelics temporarily overturn.

1. Consciously make the choice to change your mind. That one decision has had an incredible impact. It sounds so simple, right? But, sometimes the most difficult thing to change is your mindset. 2. Start small . I started with one small mental exercise every day... Do one thing to make myself and someone else smile. After several days of starting with that small task, I couldn't believe the difference it was starting to make.
