Hp Service Manager 9 3

Wed, Jan 25, 2012. HP has broken out of their mold and has done something extraordinary with the new process designer released with Service Manager 9.3. On the surface it might not seem like such a monumental task but HP's history with ServiceCenter and Service Manager is to release new features that just build on top of the traditional Service

Hewlett-Packard continues to march forward with HP Service Manager 9.3 – an IT service management (ITSM) and service desk platform that's available in a SaaS configuration.

It's designed to service customers with 1,000 or more end-users. Version 9.3 has four key areas of enhancement, according to Chuck Darst, head of HP ITSM product marketing.

The HP Service Manager is one of the applications acquired by HP when it purchased Peregrine Systems in 2005. The application was originally known as PNMS. After releasing the first version of PNMS, Peregrine Systems eventually added functionality such as Request Management, Call Management, and Change Management and rebranded the application as Peregrine ServiceCenter. After the acquisition by HP, the application was rebranded as HP Service Manager and was included in the HP OpenView product su
