IATA - Airport Development

The application of the improved Level of Service (LoS) concept, featured in the IATA Airport Development Reference Manual (ADRM), provides a detailed benchmark and determines if: Your airport processes offer optimum passenger waiting times and adequate space.

IATA - Level of Service (LoS) Concept

Airport planning and infrastructure development must support safe, functional, capacity-optimized and user-friendly airports. IATA provides planning expertise and a global perspective to ensure that airport projects gain early airline community involvement and produce facilities that are demand-led, fit-for-purpose and cost effective to develop and operate.
