The IGCSE requires you to give direction on a 16 point compass. Bearings are used to give the direction of a point in degrees, always starting from north. This means that North would be  $0^\circ$  from north (or 000 as a bearing), East would be  $90^\circ$  ( written as 090 for bearings),

# Bookmark File PDF Igcse

South would be  $180^\circ$   
(written as 180) and  
West would be  $270^\circ$   
(written as a bearing  
of 270).
