Influence: Science and Practice (ISBN 0-321-18895-0) is a psychology book examining the key ways people can be influenced by "Compliance Professionals". The book's author is Robert B. Cialdini, Professor of Psychology at Arizona State University. The key premise of the book is that in a complex world where people are overloaded with more information than they can deal with, people fall back on a decision making approach based on generalizations.

As it turned out, the book *Influence: Science and Practice* by Robert Cialdini was what I needed. It talks in details about the factors that make us say "yes" to a request. There is actually a similar book from the same author entitled *Influence: The Psychology of Persuasion*. Here is the difference between them:

Review: Influence - Science and Practice - Life Optimizer

While the book is titled "*Influence: Science and Practice*", and you can certainly use the information within to do so, the author spends more time discussing how to defend yourself against the tactics salespeople (and others) use to manipulate you, often without your awareness.

Influence: Science and Practice (4th Edition): Cialdini ...

Influence: Science and Practice is an examination of the psychology of compliance (i.e. uncovering which factors cause a person to say "yes" to another's request) and is written in a narrative style combined with scholarly research.
