Markets is a financial system by which governments, companies and individuals borrow and invest money trans-nationally. It is comparable to a capital market, which enables government entities, companies and individuals to borrow and invest domestically. Both systems occur between those with excessive funds and those with deficient funds.

The U.S. capital markets are the largest, deepest, and most vibrant in the world and of critical importance in supporting the U.S. economy. The United States successfully derives a larger portion of business financing from its capital markets, rather than the banking system, than most other advanced economies.
