A hydraulic structure is a  
structure submerged or

# Online Library Irrigation Engineering Hydraulic Structures By S.K Garg

partially submerged in any body of water, which disrupts the natural flow of water. They can be used to divert, disrupt or completely stop the flow. An example of a hydraulic structure would be a dam,

# Online Library Irrigation Engineering Hydraulic Structures By SK Garg

which slows the normal flow rate of river in order to power turbines. A hydraulic structure can be built in rivers, a sea, or any body of water where there is a need for a change in the natural flow of water.
