~~INTERNATIONAL ISO/IEC STANDARD 27007~~

It was published in 2013 by the ISO (International Organization for Standardization) and IEC (International Electrotechnical Commission) and belongs to the ISO 27000 family of standards. It is the only internationally recognized certifiable information security standard.

~~ISO 27001, the Information Security Standard | IT...~~

The ISO/IEC standard was revised in 2005, and renumbered ISO/IEC 27002 in 2007 to align with the other ISO/IEC 27000-series standards. It was revised again in 2013. It was revised again in 2013. Later in 2015 the ISO/IEC 27017 was created from that standard in order to suggesting additional security controls for the cloud which were not completely defined in ISO/IEC 27002.

~~ISO/IEC 27002 – Wikipedia~~

ISO/IEC 27007 was developed by joint ISO and IEC (International Electrotechnical Committee) technical committee ISO/IEC JTC 1, Information technology, subcommittee SC 27, Information security, cybersecurity and privacy protection, the secretariat of which is held by DIN, ISO 's member for Germany.

~~ISO – Guidance for information security management systems ...~~

The official titles of most current ISO27k standards start with “ Information technology — Security techniques — ” reflecting the original name of ISO/IEC JTC1/SC27, the committee responsible for the standards. However this is a misnomer since, in reality, the ISO27k standards concern information security rather than IT security.

~~The ISO27k Standards~~

ISO/IEC 27002 is a popular, internationally-recognized standard of good practice for information security. Its lineage stretches back more than 30 years to the precursors of BS 7799. Scope of the standard. Like governance and risk management, information security management is a broad topic with ramifications throughout all organizations.
