Constables Clouds

Artwork page for 'Cloud Study', John
Constable, 1822 on display at Tate

Britain. Constable's oil studies of
skies show a remarkable

understanding of the structure and
movement of clouds. Most also give a

good impression of their three-
dimensional volume. The studies vary

in size. This is one of only four
examples he painted on a larger

format.

‘Cloud Study’, John Constable, 1822 | Tate

Clouds is one of around fifty extant paintings of the sky that Constable made in Hampstead between 1821 and 1822, and it has been estimated that he produced over one hundred such studies at the...

Clouds - John Constable — Google Arts & Culture

In 1821 and 1822 Constable started making direct studies in the open air of cloud formations. These were mostly made from the high ground at Hampstead as this was an ideal observation point. Some sketches show clouds only and others like this show the top of a trees.

Seascape Study with Rain Cloud, c.1827 - John Constable ...

John Constable is arguably the most accomplished painter of English skies and weather of all time. For Constable, the sky was the keynote, the standard of scale and the chief organ of sentiment in a landscape painting. But how far did he understand the workings of the forces of nature which created his favourite cumulus clouds, portrayed in so many of his skies over the landscapes of Hampstead Heath, Salisbury and Suffolk?

revolutionising the genre of landscape painting with his pictures of Dedham Vale, the area surrounding his home – now known as "Constable Country" – which he invested with an intensity of affection.

John Constable - Wikipedia

Among early nineteenth-century artists, John Constable was one of the most assiduous and systematic students of the sky. As a landscape painter he was acutely aware of the sky as the principal source of light and of the extent to which cloud cover, the formations of clouds, and atmospheric effects could influence the appearances of nature.
