image by Guy Sande (Image rights) In 1958 (actually November 1957 for Types 028 and 029), Kodak AG revised the Retina range with a new larger viewfinder that transformed the usability of the camera. The large bright-line finder incorporates outlines for the 80mm & 35mm lenses, and this obviates the need for a separate multiple finder.

Kodak Retina IB/IIC/Iiic - Camera-wiki.org - The free ...  
Retina 1b is a 35mm film folding viewfinder camera made by Kodak AG and produced between 1954-57 with quantity about 161.000 units.. The Retina 1b was introduced at the Photokina 1954. It had the new fast Synchro-Compur shutter with light-value setting mode. That means that several appropriate aperture/shutter-speed settings easily could be found when the actual light value was preset.

A review and demo of the Kodak Retina 1b camera.

My Thoughts on the Kodak Retina 1b - YouTube  
The hood for the standard lens for the Retina 1b, Iic, Iiic, IB, IIC, Iiic & the original Retina Reflex camera is fixed by a bayonet-mount to the shutter housing around the lens itself. This black plastic rectangular hood is marked "Kodak 50mm" and has tiny red dot on the side to align with that on the lens mount.

Kodak Retinette 1B review. By Stephen Dowling - 03/07/2018. 6345 . 5 By Steve Ford. As an inveterate collector and appreciator of photographic apparatus, but also a less than wealthy one, I'm always on the lookout for gear that is not only nice but also not too hard on my bank balance. So I love the quality feel and fine engineering of the best German brands like Voigtlander and Zeiss and ...

Kodak Retinette 1B (Operating) - YouTube  
The Kodak Typ 037 was a product of the German Kodak AG, one of a series of Retinettes. It was a 35mm viewfinder camera with built-in coupled selenium meter made by Gossen. The bright line viewfinder had a needle-centring display for the meter. The lens was a Rodenstock Reomar 45mm/f2.8 in a ProntorLK shutter, with speeds from 1/15-1/500 +B. The film was advanced by a lever, unusually mounted ...

Kodak Retina 1a, closed and ready to pocket. When the frame counter reaches 1 and you've made that shot, the advance lever locks. This way you know the film's done. To rewind, press the rewind button (the inset button on the bottom with the small black dot), lift the top left knob and start turning it clockwise. There's an arrow on it to remind you in which direction you should turn it. There ...

Kodak Retina 1a - Ken Rockwell  
Retina was the brand-name of a long-running series of German-built Kodak 35mm cameras, produced from 1934 until 1969.Kodak Retina cameras were manufactured in Stuttgart-Wangen by the Kodak AG Dr. Nagel Werk which Kodak had acquired in December 1931.. The Retina line included a variety of folding and non-folding models, including the Retina Reflex single lens reflex camera.

Kodak Retina - Wikipedia  
The Kodak Retina Ia, often regarded as completely useless by most photographers, is something I simply love using. This elder camera has its issues and a rather strange design. It is a strange mixture of the pocket folding cameras of the early 20th century and the 35mm rangefinders and SLRs that came about at the beginning of the 1960s. It has the small compact shape of a rangefinder but with ...
