What Is Language  
Transfer? (with  
pictures)

1 Definition. In  
second language  
learning,  
learners use  
different  
strategies to  
acquire  
knowledge. One

of these strategies is language transfer. It consists of replicating structures from the learners' first language when they are speaking or writing something in a second language.

especially when  
they are unsure  
about which  
structure to use
