Lean Maintenance For Lean Manufacturing
Lean maintenance is a proactive maintenance operation employing planned and scheduled maintenance activities through total productive maintenance (TPM) practices using maintenance strategies developed through application of reliability centered maintenance (RCM) decision logic and practiced by empowered (self-directed) action teams using the 5S process, weekly Kaizen improvement events, and autonomous maintenance together with multi-skilled, maintenance technician-performed maintenance ...

What Is Lean Maintenance? - Efficient Plant

Lean Maintenance is a key ingredient to a successful Lean Manufacturing environment. Lean Manufacturing seeks to cut out three types of waste: Processes that do not add value for the customer; Inefficiencies in processes; Variations in the pace of production. The latter concept is "mura" or "unevenness". If an employee's work day is divided between being idle for five minutes and working frantically for ten, then her workload should be smoothed out so she can work steadily all day.

Lean Maintenance - world-class-manufacturing.com
