Cognitive Dissonance Theory Leon Festinger (1957) | pdf ...

A concept introduced by Leon Festinger in 1957. According to the author, this tension forces the subject to create new ideas or attitudes that reduce tension and complement his belief system. This theory has been related to decision-making; Every time we decide to do something that conflicts with our beliefs, different strategies are used to alleviate that tension. "When there is dissonance ...

Leon Festinger's theory of cognitive dissonance has been widely recognized for its important and influential concepts in areas of motivation and social psychology. The theory of dissonance is here applied to the problem of why partial reward, delay of reward, and effort expenditure during training result in increased resistance to extinction.

A Theory of Cognitive Dissonance | Leon Festinger

Leon Festinger - Leon Festinger - Cognitive dissonance: While at the University of Minnesota, Festinger read about a cult that believed that the end of the world was at hand. A woman, "Mrs. Keech," reported receiving messages from extraterrestrial aliens that the world would end in a great flood on a specific date. She attracted a group of followers who left jobs, schools, and spouses and ...

A Theory of Cognitive Dissonance: Amazon.co.uk: Festinger ...

Leon Festinger introduced the concept of cognitive dissonance as psychological tension in 1957. He tested the decision-making process in a cognitive dissonance experiment. Cognitive dissonance is a sensation that seems to derive from a conflict between the ideas, beliefs, and values ??of a certain subject and their behavior.

Leon Festinger and Cognitive Dissonance - Exploring your mind

L. Festinger; Published 1957; Psychology; Cognitive dissonance theory links actions and attitudes. It holds that dissonance is experienced whenever one cognition that a person holds follows from the opposite of at least one other cognition that the person holds. The magnitude of dissonance is directly proportional to the number of discrepant cognitions and inversely proportional to the number ...
