Lesson Study Project Overview - Home ¶ Home

Lesson study (or jugyō kenkyū) is a teaching improvement process that has origins in Japanese elementary education, where it is a widespread professional development practice. Working in a small group, teachers collaborate with one another, meeting to discuss learning goals, planning an actual classroom lesson (called a "research lesson"), observing how their ideas work in a live lessons with students, and then reporting on the results so that other teachers can benefit from it.

Lesson study - Wikipedia

Lesson Study (LS) is a highly specified form of classroom action research focusing on the development of teacher practice knowledge. It has been in use in Japan since the 1870s. LS therefore pre-dates action research as we know it in the West, by some 70 years.

Lesson Study - Wikipedia

To complete our Master's in Education Practice and Research, you'll need to acquire 180 credits in total. So the length of your study is determined by the number of APL credits you already have. One year part time: Requires APL of 90 credits. You'll then study one 30-credit module option and complete a 60-credit dissertation.
