Lifespan development explores how we change and grow from conception to death. This field of psychology is studied by developmental psychologists. They view development as a lifelong process that can be studied scientifically across three developmental domains: physical, cognitive development, and psychosocial.

What is lifespan development psychology?
Boyd and Bee (2009) explain that psychologists who study human development have recently adopted the lifespan perspective which “ maintains that important changes occur during every period of development and that these changes must be interpreted in terms of the
