by G. Mulder • Thursday April 11, 2013. With the garden slowly waking up to spring, it's a great time to discover plant photography and macro photography: the art of the close-up. Photographs are a wonderful way to capture your impressions of the blossoming plants and flowers in your garden - and you don't have to be a professional to do it.

~~Macro Photography for Gardeners and Nature Lovers: The ...~~

Macro Photography for Gardeners and Nature Lovers, by Alan Detrick. This is a good introduction to breaking your camera out in the garden or in a local park. The emphasis is on flowers, and the scope is relatively narrow. But it gives you loads of good ideas and approaches for taking photos of flowers and, to a lesser extent, bugs.
