Marching to the Fault Line is a fascinating, if flawed, account of the great miners' strike of 1984-85. Francis Beckett and David Hencke have unearthed important government material from the strike, and had access to the diaries and memories of a range of senior Labour Party and trade union figures for the book.

As the old adage goes, the victor gets to write the history - and so it is that history tells us Thatcher smashed the unions and freed Britain, putting us on a path of unparalleled prosperity. She didn't, but hey - she won, she writes the version. Which is why books like Marching To The Fault Line are so important.
