Marine Engine Room Blue Book: Based on the Original ...

An engine room log book is a track record of all ship machinery parameters, performance, maintenance, and malfunctions. The recorded values and information are used as a reference, to compare and record data that can be used for insurance claim if some accidents take place. A responsible watch keeping engineer has to fill the log book for his/her own watch period without fail, along with the signature of all watch keepers for their concerned watch timings.
