COST ESTIMATION - University of
Oklahoma

shall and Swift (M&S; formerly Mar-shall
and Stevens) Equipment Cost Index was
started as a regular feature of CE [4]. We
suspect that Arnold and Chilton derived
the productivity fac-tor from this data, but
they did not leave a paper trail. Despite the
fact that the M&S index is based on used-
equipment prices, while the CEPCI is built
around new

Engineering Practice Updating the Plant
Cost Index

A cost index shows the change in cost
over a span of time. The index will always
have a date for the base figure of 100. The
numbers in the table can be thought of as

Access Free Marshall Swift Equipment Cost Index

percentages representing how the cost has risen or fallen when compared to the base. So if the index indicates that 2007 is the base (i.e., 100) and for 2013 the index is "134", then the 2013 cost was 34% higher than the base point.
