You would be better  
of sitting the EA and  
then sitting the 70-646  
exam rather than  
doing the MCITP:SA  
and then wanting to  
do the EA exam

because you would then need to sit 70-643 and 70-647. I should warn you that the EA cert is definitely more aimed at the Enterprise Admin, you're expected to understand a wider range of products, not just Server 2008.
