employees, such as
executives and
middle managers.

What are business
metrics? Definition
and Examples

Whereas a metric

Where To Download

may be Customer Churn Rate, it ' s made of measures such as a) the overall number of customers and b) the number of customer that discontinue their service each month. If measure sounds similar to KPI, think of it like this: measures are

Where To Download

numbers/values;
KPIs are context-
driven and are often
made up of multiple
measures.

Communications ...

A measurement is a
data point at a
single point in time.

Typical
measurements
include things like:
How many people
visited a website in
a month. How much

Where To Download

revenue a business received last quarter. The number of employees a business has. The number of leads in a company ' s sales funnel. These numbers are important.

Measurements vs.

Process

Performance

Metrics, also called
KPI ' s (Key

Where To Download

Performance And Indicators) focuses on how the task is being performed by measuring performance and if individual goals are being achieved.

This indicator should be measured by a ratio (generally represented by a number) which

Where To Download

portrays the
progress of the
process as a whole
or in part.

8 examples of
Business Process
Performance
Metrics

Metrics and
measurements are
similar enough that
the two terms are
commonly used

Where To Download

interchangeably.

The key difference is that a metric is based on standardized procedures, calculation methods and systems for generating a number. A

measurement could be taken with a different technique each time. As such,

Where To Download

metric is a more appropriate term for highly standardized measurements.

Second Edition
