through various types of financial transactions, including mergers, acquisitions,...

~~Mergers and Acquisitions — M&A — Definition~~

Mergers and acquisitions (M&A) are defined as consolidation of companies. Differentiating the two terms, Mergers is the combination of two companies to form one, while Acquisitions is one company taken over by the other. M&A is one of the major aspects of corporate finance world. The reasoning behind M&A generally given is that two separate companies together create more value compared to being on an individual stand.

In corporate finance, mergers and acquisitions (M&A) are transactions in which the ownership of companies, other business organizations, or their operating units are transferred or consolidated with other entities. As an aspect of strategic management, M&A can allow enterprises to grow or downsize, and change the nature of their business or competitive position.

~~Mergers and acquisitions - Wikipedia~~

A merger occurs when two separate entities combine forces to create a new, joint organization. Meanwhile, an acquisition refers to the takeover of one entity by another. Mergers and acquisitions...

business.

~~The Reasons for Mergers and Acquisitions – dummies~~

A merger or acquisition is a major organizational change with the potential to alter many of the underlying processes behind how both businesses operate. If a detailed integration plan isn't in place when a transaction is made, the companies involved in the deal may function separately for longer than anticipated, resulting in increased costs over time.
