The Journeyman's Workshop is based in a typical model engineers shed which I built many years ago. The workshop has seen many changes and at one time included both a darkroom and the "potting shed". The workshop has been on-line in one form or another since 2007. The original pages are reviews of my lathe and milling machine.

The Model Engineers' Workshop Index was originally produced by Colin Usher and is now maintained by Neil Wyatt. This index is in the form of an excel spreadsheet, which can be used on its own or with various database programs. The latest version of Neil Wyatt's index is posted here regularly, together with a PDF verison.

Getting Started In Model Engineering Workshop Machinery - Introduction Now that the new workshop is coming along nicely it is time to think about some machinery to make work that bit easier. This will likely be expensive so worthwhile doing some research and making sure that your lathe and milling machine will do what you want of them.
