MVS TSO, Part 2: Commands, CLIST, and REXX. This is the second book in our classic two-book series on TSO. It teaches ISPF users how to go a level deeper and use TSO commands directly for program-development tasks. Then, it teaches how to combine those commands into time-saving CLIST or REXX procedures. Murach's OS/390 and z/OS JCL

ISPF is a full panel application navigated by keyboard. ISPF includes a text editor and browser, and functions for locating and listing files and performing other utility functions. After logging on to TSO, users typically access the ISPF menu. In fact, many use ISPF exclusively for performing work on z/OS®. ISPF menus list the functions that are most frequently needed by online users.
