Bearded dragons: facts and photos - National Geographic
Reptiles are cold-blooded vertebrates. (Vertebrates have backbones.) They have dry skin covered with scales or bony plates and usually lay soft-shelled eggs.

Reptiles - National Geographic Kids
Reptiles are air-breathing vertebrates covered in special skin made up of scales, bony plates, or a combination of both. They include crocodiles, snakes, lizards, turtles, and tortoises.

National Geographic Kids Readers: Lizards : Laura Marsh ...
A terrific book for reluctant readers. I would recommend it for boys age 8-11, especially if they don't like reading. The topic is high interest. The pictures are National Geographic quality. My young male students chose these National Geographic Kids books about reptiles first for independent reading time.
