The elements in the same column of the periodic table (same group, or family) all have the same number of electrons in their outer energy levels. Section 2 (page 74) 1. losing. 2 ...

### *Teacher Guide & Answers*

Nuclear energy provides more carbon-free electricity in the United States than solar and wind combined, making it a key player in the fight against climate change. But the U.S. nuclear fleet is aging, and operators are under pressure to streamline their operations to compete with coal- and gas-fired plants.
