The Oath Forger series has been such a great read, I can't believe it's already over. I fell in love with the series from the first book and can't help but wish it would continue! Book 5 was the perfect ending, and even though it resolved everything and gave a satisfying ending for Ava and her Kreks, I still want more!

Lots of stuff happened in this book and I can't wait to see how it all plays out in book 4 In this book, Ava grows closer to her kreks, Uthan and Koah the most, and finally accepts one of the men. She also has to deal with someone trying to make her leave, confronting the committee of Senators and convincing them she is the Oath Forger, and discovering her own powers.

## Oath Forger 3 (Oath Forger, #3) by Nia Mars

Very interesting start to the series. The concept of different galaxies is intriguing as is the history of the Kreks and the Oath Forger. This was not a long read, quite short actually - I between a serial and standard novel - so hopefully there is more character development for the Kreks in the next book.
